

Jan Pfefer

Kansas Jewish Preschool

Photo Release Form

Our preschool families enjoy seeing regularly updated pictures of their children's participation in our activities and programs. Posting photos also provides an easy means to share your child's life with family and friends.

Our school's growth is enhanced by its social media presence. To this end, we have a public social media page where we share information about our school and photos of learning and activities. We care about your child's privacy and safety. Children's names will **never** be used on public social media. Photos are chosen for the story they tell and will always be screened by our staff before being shared. We appreciate your understanding.

In an effort to ensure that we meet your family's privacy preferences, Kansas Jewish Preschool will not post/publish *individual* pictures of your child unless we receive written permission.

KJP retains permission to post and publish group and class photos. As mentioned above, children will never be personally identified on public social media.

Please check the appropriate box for your family's privacy preference. Sign and return.

Child's Name(s): _____

- I give permission for photos including my child to be published on any platform (website, social media, print).
- I do not give permission for my child's *individual* photo to be published on public platforms but it may be published on Kansas Jewish Preschool's private page.
- I do not give permission for my child's *individual* photo to be published on the private Kansas Jewish Preschool's Facebook page or any social media platform.

Parent's Signature: _____ Date: _____
